Welcome to St. Anne's for the 2018-2019 school year.

We will finish up talking about our cold weather friends: Penguins this week and look forward to escaping the winter weather with our indoor Beach Party to celebrate Valentine's Day on Thursday. Our Story of God's Love, as well as our prayer service this week, talked about different ways to show love for others (our "neighbors").

We Love to Read!

What are we working on this week in Preschool?

Young children are constantly learning about the world around them. Most children learn best through experiences and "hands-on" activities. Therefore, what may look like "just playing" to an onlooker, is really an abundance of learning opportunities. Here are a few things your child will be working on in preschool:

- Following classroom rules and routines
- Listening attentively and responding appropriately to stories and group activities
- Interacting appropriately and effectively with others.
- Making appropriate choices and completing a variety of tasks independently
- Recognizing first and last name and writing first name,
- Holding pencil/crayon correctly
- Recognizing ways to show love for "neighbors"
- Comparing/contrasting objects
- Sorting objects
- Following oral and "written" (picture) directions
- Completing simple patterns
- Using different materials to create numbers/letters
- Recognizing rhyming words/sounds & beginning word sounds
- Making the sign of the cross, participating in prayers
