

# Sail into St. Anne's Preschool

**Enter to Learn Christ. Exit to Serve Christ.**

**Week of:**

April 17-19

**Weekly Theme:**

Rain/Rainbows

**"Stories of God's**

**Love": 19 David**

**Teaches Us to Pray**

## Welcome to St. Anne's for the 2017-2018 school year.

We had a great walking trip to Main Street last week. We enjoyed time visiting with Sara at the Post Office and mailing our letters as well as walking by several other businesses downtown.

Although this April hasn't held true to the saying April Showers Bring May Flowers (not sure what April snow brings?) we will be spending time this week doing many activities with rain and rainbows. We will also talk about how David used songs to pray and how we can pray anytime, anywhere in many different ways.

### Important Information & Reminders

- April tuition is due
- April Deli Max Reading Logs due May 1
- Remember tennis shoes on Tuesdays and library books on Thursdays

### **Trip to the Post Office and Main Street**

## **What are we working on this week in Preschool?**

Young children are constantly learning about the world around them. Most children learn best through experiences and "hands-on" activities. Therefore, what may look like "just playing" to an onlooker, is really an abundance of learning opportunities. Here are a few things your child will be working on in preschool:

- Following classroom rules and routines
- Listening attentively and responding appropriately to stories and group activities
- Interacting appropriately and effectively with others.
- Identifying and writing upper and lower case

letters. Understanding beginning letter sounds.

- Spatial awareness (STEM challenges)
- Basic understanding of the water cycle and what makes it rain as well as what makes a rainbow
- Recognizing and copying the basic rainbow pattern
- Identifying different ways, places and times we can pray—anytime, anywhere
- Sequencing a story using pictures
- Making the sign of the cross, participating in prayers
